www.ecoprolog.com

Here you find us in the northern part of Cologne's inner city:

By train you ride to Cologne Central Station. The office of ecoprolog is 500 metres away from the station if you take the backdoor entrance that leads to the "Breslauer Platz". According to the map shown above you take the "Maximinenstraße", turn into the "Turiner Straße" to the street "Unter Krahnensäumen".

By car you best take highway A3 direction "Köln Zentrum" and cross the bridge "Zoo-Brücke". After the bridge you take the first departure and drive along the river Rhine on the street "Konrad-Adenauer-Ufer". You follow the signs to the Central station where you best find a parking lot.

By plane you arrive at the "Köln Bonn Airport" (CGN). By train you ride with the trains "S 13", "RE 1" or the ICE in about 15 minutes to Cologne Central station.

TIP: If you have time left, enjoy the lively mixture of different cultures around the so called "Eigelstein". In its centre you find a tower gate. It is one of two gates remaining from Cologne's medieval city wall.
