

Price and product information

Please be aware that you can order ecoprolog's waste & bio Data only in connection with a subscription to our [waste & bio Infrastructure Monitor](#), which summarises news in the global waste management and bioenergy markets on a weekly basis.

Currently, there is no online order form available yet for w&b Data. If you are interested, please contact us: j.eich@ecoprolog.com

Price models w&b Data (€ per year)*

Module	Single-user version	Company version	Corporate version
Waste to Energy	600.-	1,200.-	POA
Biomass to Power	600.-	1,200.-	POA
Biogas	600.-	1,200.-	POA

* plus 19% VAT for customers within Germany and EU customers without a VAT ID

If you order more than one module you will receive a 50% discount on each additional module.

- Single-user version: one person/workplace
- Company version: unlimited number of users within one company (legal entity)
- Corporate version: unlimited number of users for different, but legally interconnected companies (e.g. affiliated companies, participations abroad). The price depends on the number of companies and persons.

The subscription includes twelve-months access to the above-mentioned data with a minimum contract period of one year. It can be terminated with four weeks' notice before expiration date. Otherwise the subscription is automatically renewed for another year.

The subscription is only available to registered users. Login data (username, password) must not be passed on to third parties. Subscribers must ensure that all registered users understand and take into account these copyright regulations.
